Правая рука

The diagram is divided into two halves by a vertical dashed line. The left half is labeled 'Левая рука' (Left hand) and the right half 'Правая рука' (Right hand). Each half contains two rows of dots. The top row has three dots, and the bottom row has five dots. In the left half, two arrows originate from the top row: one points up and to the left from the first dot, and another points down and to the left from the second dot. In the right half, two arrows originate from the top row: one points down and to the right from the first dot, and another points up and to the right from the second dot. The bottom row of dots in the left half has a larger dot at the first position, and the bottom row of dots in the right half has a larger dot at the last position.
